FUNDED RESEARCH COLLABORATIONS

Ongoing Federally Funded Research Projects:

National Institutes of Health - Fogarty International Center

Title: Masters in One Health and Emergency Research Ethics (MOHERE)

PI: Donal O'Mathuna

Project Number: 5R25TW012217-02

Major Goals: The program aims to strengthen the international research ethics training capacity in Kenya while also addressing the specific needs related to One Health research and emergency health research. As a collaboration between the University of Nairobi (UoN) and The Ohio State University (OSU), it offers in-depth training and experiences in research ethics and integrity through establishing and running postgraduate diploma and MSc in One Health and Emergency Research Ethics (MOHERE) at UoN.

Role: Co-Investigator

National Science Foundation

Title: Bridging the Gap: A Participatory Approach to Understanding and Addressing the Research Related Concerns of the Neurodiversity Movement

PIs: Katherine Walton and Abraham Graber

Project Number: 2316078

09/1/23-09/1/26

Major Goals: The purpose of this study is to better understand people's perspectives on different types of autism research. In understanding perceptions of risks, benefits, ethical concerns, and practical challenges of conducting different type of autism research, we plan to use this information to develop a brief research ethics training to create better guidance for researchers regarding how to recognize ethical concerns in autism research and respond in a way that honors the perspectives and preference of autistic people and their families.

Role: Co-Investigator

Nat Ctr for Advancing Translational Science

Title: Ohio State University Center for Clinical and Translational Science (CTSA): Transforming the Science of Translation to Improve Health for All

Project Number: UL1TR002733

PI: Julie Johnson and Matthew Ringel

07/2023- 06/2030

Major Goals: The major goals of this project are to leverage and synergize the research infrastructure and support and extend educational programs (T11 and KL2) to maintain academic home for clinical and translational science at The Ohio State University focused on translational therapeutics, precision medicine, data analytics and health equities. KL2TR002734 (PI: Carnes) TL1TR002735 (MPI: Bumgardner/Kirschner)

Role: Co-Investigator (Member of Stakeholder/Faculty Engagement Board)

National Institute on Minority Health and Health Disparities

Title: RADx UP: Data for Indigenous Implementations, Interventions, and Innovations (D4I)

RFA/PA: U24MD018360 (NATIVE BIODATA CONSORTIUM)

PI: Joseph Yracheta (Native BioData Consortium); Soledad Fernandez (OSU)

09/01/2023-08/31/2026

Major Goals: Guided by IDSov principles, D4I will catalyze Tribal data initiatives through ongoing engagement of Tribal nations to advance multimodal and ethical COVID-19 and SARS-CoV-2 research. The D4I specific aims are as follows: AIM 1: Establish best practices for responsible data sharing and access under the principles of Indigenous data sovereignty (IDSov) through engagement and consultation of Tribal partners. AIM 2: Construct a secure, centralized D4I Tribal Data Repository (TDR) for the collection and harmonization of de-identified AI/AN Data. AIM 3: Build education and research capacity through construction of analytic spaces for Tribal use.

Role: Co-Investigator

Recently Completed Federally Funded research Projects are highlighted below:

National Center for Advancing Translational Science

Rapid Acceleration of Diagnostics – Underserved Populations (RADx-UP)

Title: Improving Access to COVID Testing for All in Ohio (IMPACT-Ohio)

PIs: Jackson/Paskett

Major Goals: This project aims to address and reduce the disparities in COVID-19 education, testing, contact tracing, follow-up and treatment among minority, underserved and vulnerable populations, through the delivery of an integrated program that focuses on individual, social and community, health system and broader contextual-level barriers related to disparities in COVID-19 testing.

Role: Co-Investigator, Human Subjects Unit

2020-2022

Recently Completed Internal Grants

Internal OSU Discovery Themes Special COVID-19 Grant Initiative

Title: Pandemic Pedagogies: Precursors, Paradigms, and Portents

PIs: McDow/Harris

Role: Co-Investigator
