Senior Software Engineer with 20 years of experience building, scaling, and maintaining production web applications. Former AWS and Nike engineer with deep expertise in modern web stacks (JavaScript, TypeScript, Node.js). Proven technical leader and hands-on individual contributor with experience driving 0→1 products and mentoring engineers.

## EXPERIENCE

---

### INDEPENDENT

June 2022 - Present

*Took time to invest in operating a small business, supporting others, and personal development. Authored an academic theory paper and a nonfiction book, strengthening systems thinking, communication, and project execution skills.*

### FRONT-END ENGINEER II

Amazon Web Services (AWS)

November 2017 - June 2022

- Designed and maintained large-scale web applications supporting global AWS platforms.
- Built JavaScript and Node.js systems integrated with identity, commerce, and security services.
- Acted as senior IC and technical leader, owning features end-to-end, mentoring engineers, and collaborating across teams.

### ENGINEERING TECHNICAL LEAD

Nike

Feb 2016 - Sep 2017

- Led frontend and platform development for Nike's internal CMS powering global digital experiences.
- Delivered a React and Redux rewrite, built Node.js services for cloud-native deployment.
- Mentored engineers and shaped technical direction.

Additional earlier experience includes technical leadership and web development roles at the Veterans Affairs, U.S. Fish and Wildlife Service, Game Sports Network, Esri, and more — building a foundation that bridges startup agility and enterprise software rigor, including compliance-focused applications and engineering mentorship.
