INSTITUTIONAL SERVICE FOR PROTECTION OF GENDER MINORITIES POLICY

As a founding member and member of the first steering committee of the *Italian Society for Women in Philosophy*, I have proposed and helped designing the Mentoring Program in Philosophy, especially aimed to address and redress discrimination against gender minorities.

As an appointment member and elected President of the *National Committee for the Assessment of Scientific Research*, I am fully committed to good practices in the assessment of research and allocation of funds.

As a nominated member of “100esperte”, I support events disseminating good practices.

PUBLIC ENGAGEMENT

I have been very active in public discussion on research assessment in EU; I wrote an opinion piece on the Italian innovations, based on my first-hand experience as President of the National Committee of Assessment of Scientific Research *Nature-Italy* (22.7.2023).

In 2016, I wrote a series 25 articles on *Il Domenicale Sole24ore*, interviewing philosophers on the theme of practical reasoning, which generated a large discussion and lead to the birth of a philosophy series on practical reasoning (Pisa: ETS). I also wrote for *Domani* in 2020.

I participate in an educational program on philosophy (Philosophy Paths)- organized by the Italian Ministry of Higher Education, with a lecture on the concept ‘responsibility’.

I occasionally participate in dissemination events, such as the ‘Philosophy Day’ in Sassari, conference Ethics and Digitalization, available on utube (2020).
