Topics of Interest

Evolutionary Ethics

evolutionary Epistemology

Animal Mind

Pragmatism

Apply Ethics

John Dewey

A REVIEW OF THOUGHTS AND INTERESTS

My interests have been intertwined since my teenage years. Nature, philosophy and ethics. Fortunately, I live in a period when people have understood that for human growth and development, it is necessary to see connections between sciences. As there is an intertwining in nature and living beings.

I consider the approach of pragmatism and research in the field of evolutionary ethics to be a good tool for contemporary man to achieve peace and coexistence.

EDUCATION

2024

Ph.D. in philosophy at Islamic Azad University of Iran Dissertation: "An analysis and critique of John Dewey's view about the philosophical implications of Darwin's evolutionary theory in the field of epistemology and ethics".
