

**Jinho Lee, MD**

**Medical Doctor (MD) | Functional Medicine–Based Clinical Practice**

**Founder of Consciousness Medicine (CM)**

**Independent Researcher & Architect of the Consciousness**

**Civilization Framework (CCF)**

---

### **Contact & Affiliation**

- **Affiliation: Independent Researcher (Unaffiliated)**
  - **Location: Seoul, Republic of Korea**
  - **Professional Field: Internal Medicine–Based Clinical Practice, Functional Medicine, Consciousness Medicine**
  - **Research Platforms: OSF, Zenodo, PhilPapers / PhilPeople**
- 

### **Education**

**Yonsei University College of Medicine**

**Severance Hospital, Sinchon, Seoul, Republic of Korea**

- **Degree: Doctor of Medicine (MD)**
  - **Enrollment: 1993**
  - **Graduation: 2001**
- 

### **Clinical Experience**

**Medical Doctor with over 20 years of clinical practice primarily focused on**

**internal medicine–based outpatient care, functional medicine, and chronic systemic disorders (since 2004).**

**2004 – Present**

- **Practicing internal medicine with a functional medicine–based clinical approach since 2004**
- **Specialized in non-surgical, long-term maintenance–oriented care for complex chronic and immune-mediated diseases**
- **Clinical focus on hormone–immune–metabolic system integration rather than symptom suppression**

**Major Clinical Areas**

**Hormone-Related Oncology (Non-Surgical Care)**

- **Thyroid cancer, breast cancer, and other hormone-related malignancies**
- **Long-term recurrence prevention strategies**
- **Non-surgical tumor reduction, stabilization, and maintenance care**
- **Immune, endocrine, and metabolic environment modulation**

**Autoimmune & Immune-Mediated Disorders**

- **Hashimoto’s thyroiditis with documented antibody reduction and seroconversion-focused treatment**
- **Autoimmune diseases with remission-oriented immune**

**rebalancing**

- **Atopic diseases treated without synthetic drugs or steroids, achieving clinical remission**

### **Chronic & Systemic Conditions**

- **Chronic fatigue syndrome**
  - **Immune dysfunction and immune exhaustion**
  - **Anti-aging and longevity-focused internal medicine**
  - **Chronic inflammatory and metabolic dysregulation disorders**
- 

### **Academic & Professional Roles**

- **Founder & Former President, Korean Society for Chronic Fatigue**
  - **Director, Iodine Functional Medicine Research Institute**
  - **Founder, Consciousness Medicine (CM)**
  - **Independent Researcher & Architect, Consciousness Civilization Framework (CCF)**
- 

### **Foundational Contributions**

#### **Consciousness Medicine (CM)**

- **Founder of Consciousness Medicine, a clinical framework integrating consciousness as a primary regulatory variable in physiology, immunity, and endocrine systems**

- Developed CM based on long-term clinical observation, not speculative theory
- CM serves as the medical foundation for broader consciousness-based systems

### Consciousness Civilization Framework (CCF)

- Architect and originator of the Consciousness Civilization Framework (CCF)
  - A comprehensive civilizational operating framework integrating:
    - Medicine
    - Consciousness studies
    - AI ethics and governance
    - Education systems
    - Economic and social architecture
  - CCF is formally registered through OSF and Zenodo with canonical documents and DOI records
-

## **Areas of Specialization**

- **Internal Medicine–Based Clinical Practice (MD)**
  - **Functional Medicine (Clinical practice since 2004)**
  - **Consciousness Medicine**
  - **Hormone-Related Oncology (Non-surgical care)**
  - **Autoimmune Diseases & Immune Modulation**
  - **Chronic Fatigue Syndrome**
  - **Anti-Aging & Longevity Medicine**
  - **Iodine-Based Functional Medicine**
  - **Systems Medicine & Consciousness Studies**
- 

## **Professional Philosophy**

- **Treats functional medicine as systems-based internal medicine, not alternative or complementary care**
  - **Interprets consciousness as a higher-order regulatory variable influencing physiological and immunological stability**
  - **Extends clinical medicine into civilizational-scale architectures through CCF**
  - **Focuses on long-term coherence, remission, and stability rather than short-term symptom control**
- 

## **Languages**

- **Korean (Native)**
  - **English (Professional)**
